THE EVERLASTING EVERGREEN FENCE

WHY BUY WOOD FENCE POSTS THAT ROT OUT IN A FEW YEARS?

PLANT two or three of our **PINUS PONDEROSA** between your fence posts and in two to three years you can fasten your wires to them—then you have a fence that will last hundreds of years.

Water them until they are started. Then forget them. They will grow in the poorest of soil—in rocky soil and in dry places where no other tree will grow.

Try them--you will say it is the best investment you ever made

WE CAN SUPPLY YOU WITH POT GROWN TREES—

3 year old ----- \$1.00 per doz.; \$8.00 per 100, \$75.00 per 1,000

*If you send the cash for them, we will PREPAY them to you
and no charge for packing. :: :: :: We ship in paper pots*
